

SDR410 is...

**We are proud to present you SDR410,  
a highly qualified 4-channel Digital Video Recorder.**

The SDR410 offers a complete, integrated digital video management system - a digital recorder and digital multiplexer designed to replace both a VCR and multiplexer.

The high-resolution digital recording, duplex modes, quick and easy search modes, ethernet connectivity, USB backup, and interface with text-in devices are provided with SDR410. The SDR410's capabilities allow it to serve as the digital solution in the security industry.
